

YOUR PERSONAL ACTION BOOK

Get It Together in Your Twenties

Build the money, body, and career habits that compound for decades.

Generated Jun 27, 2026 · 90-day horizon

Your 90 days at a glance

Every goal and its checkpoints on one timeline — so you can see how the next 90 days fit together, not as separate plans.

DAY 30 **Wealth.** Mapped exactly where last month's money went

Health. Trained 3x a week for three straight weeks

Craft. Chosen one target skill and committed to it

DAY 60 **Wealth.** Automatic payday transfer running for one full cycle

Health. Hit a concrete strength or distance baseline

Craft. Held a weekly practice rhythm for three weeks straight

DAY 90 **Wealth.** Hit the savings target for one full month

Health. Beat my week-1 baseline by a clear margin

Craft. Finished a piece of work that proves the growth

MID-POINT CHECK-IN · AROUND DAY 45

Halfway through, take five minutes and answer these honestly:

1. **What's actually working?** Do more of it.
2. **What's not?** Shrink it until it's easy, or drop it.
3. **What's the one thing** you'll fix for the second half?

Build an automatic savings habit

Save a fixed amount every month without relying on willpower.

THE CHALLENGE

I earn fine but save nothing

WHY IT MATTERS

Savings buys options and removes the low-grade money anxiety.

HOW THE PLAN UNFOLDS

- Week 1** Do your first actions and start your keystone habits. The only goal this week is to begin.
- Weeks 2–4** Make the routine automatic and repeatable, working toward: Mapped exactly where last month's money went.
- Month 2–3** Turn the routine into a result you can point to, working toward: Hit the savings target for one full month.

MILESTONES

- DAY 30** Mapped exactly where last month's money went
- DAY 60** Automatic payday transfer running for one full cycle
- DAY 90** Hit the savings target for one full month

KEYSTONE HABITS

Weekly money check-in

Every Sunday evening, I will review my spending for 5 minutes.

Pause before non-essential buys

Before any purchase over \$50, I will wait 24 hours before deciding.

YOUR FIRST ACTIONS

- Automate a payday transfer**
Set a standing transfer to savings the day income lands.
- Track one month of spending**
Categorize every expense for 30 days to see the real picture.

Cut one recurring drain

Cancel a subscription or habit you won't miss and redirect it to savings.

TRACK IT · FIRST TWO WEEKS

Check a box each day you do the habit. Copy it for the weeks after.

IF-THEN PLAN

When I get a raise or windfall, **then** I increase the savings transfer first, then adjust spending.

When money disappears mid-month, **then** I move savings on payday so it's gone before I can spend it.

When I'm not sure what I spent, **then** I do a 5-minute review and log it before the week ends.

Get visibly fitter in one season

Build a training habit that survives bad weeks and shows real progress.

THE CHALLENGE

Out of shape — want to get fit

WHY IT MATTERS

A body you trust changes how you show up everywhere else.

KEYSTONE HABITS

Three training slots

When my calendar reminder fires, I will do my scheduled training session.

Protein with every meal

When I sit down to eat, I will include a protein source.

YOUR FIRST ACTIONS

- Block 3 workout slots**
Put three 30-minute sessions on the calendar as real appointments.
- Pick one simple program**
Choose a beginner full-body routine so you never decide on the day.

Lay out gear the night before

Remove every morning excuse by prepping clothes and shoes.

IF-THEN PLAN

When a session won't fit, **then** I do a 15-minute version rather than zero.

When I don't know what to do, **then** I run the same fixed beginner routine, no deciding.

When I don't feel like it, **then** I commit to just showing up for 5 minutes.

Get measurably better at my craft

Pick one high-value skill and practice it deliberately every week.

THE CHALLENGE

I want to level up my skills / career

WHY IT MATTERS

Deliberate practice on the right skill compounds into real leverage.

KEYSTONE HABITS

Deliberate practice

On my scheduled practice days, I will practice my target skill for 30 minutes.

Capture learnings

After each practice session, I will note one thing I learned.

YOUR FIRST ACTIONS

- Choose one skill to improve**
Pick the single skill that would most move your work forward.
- Schedule three practice slots**
Put three short, focused practice sessions on the calendar each week.

Find a feedback source

Line up a person, community, or rubric to review your work.

IF-THEN PLAN

When I'm unsure what to focus on, **then** I pick the skill that unlocks the most and commit for a month.

When practice keeps slipping, **then** I do a 10-minute version rather than skipping.

When I'm working in a vacuum, **then** I share one piece of work for feedback this week.
