Generated Jun 27, 2026 · 90-day horizon

# Your 90 days at a glance

Every goal and its checkpoints on one timeline — so you can see how the next 90 days fit together, not as separate plans.

**DAY 30** **Health.** Kept a daily 10-minute decompress ritual for two weeks

**Mind.** Kept a daily 10-minute decompress ritual for two weeks

**DAY 60** **Health.** Held one screen-free evening every week for a month

**Mind.** Said no to or removed at least one commitment

**DAY 90** **Health.** Notice a calmer baseline on most days

**Mind.** Noticeably calmer on most days

## MID-POINT CHECK-IN · AROUND DAY 45

Halfway through, take five minutes and answer these honestly:

1. **What's actually working?** Do more of it.
2. **What's not?** Shrink it until it's easy, or drop it.
3. **What's the one thing** you'll fix for the second half?

## HEALTH

# Lower the baseline stress load

*Build daily recovery so stress stops leaking into sleep, food, and mood.*

### THE CHALLENGE

Stress is wrecking my health

### WHY IT MATTERS

Chronic stress quietly taxes everything — small recovery habits pay it back.

### HOW THE PLAN UNFOLDS

- Week 1** Do your first actions and start your keystone habits. The only goal this week is to begin.
- Weeks 2–4** Make the routine automatic and repeatable, working toward: Kept a daily 10-minute decompress ritual for two weeks.
- Month 2–3** Turn the routine into a result you can point to, working toward: Notice a calmer baseline on most days.

### MILESTONES

- DAY 30** Kept a daily 10-minute decompress ritual for two weeks
- DAY 60** Held one screen-free evening every week for a month
- DAY 90** Notice a calmer baseline on most days

### KEystone HABITS

#### Daily decompress

When I close my laptop for the day, I will do my 10-minute decompress ritual.

#### Breathing reset

When I feel my chest tighten, I will take five slow breaths.

### YOUR FIRST ACTIONS

- Define a shutdown ritual**  
A short fixed sequence that tells your brain the workday is over.
- Schedule one rest block**  
Protect a recurring window that's purely for recovery, not errands.

**Swap one stress-eat trigger**

Pick your most common trigger and pre-decide a better response.

**TRACK IT · FIRST TWO WEEKS**

Check a box each day you do the habit. Copy it for the weeks after.

**Daily decompress**

**Breathing reset**

**IF-THEN PLAN**

**When** I keep checking work, **then** I move my phone to another room for the rest block.

**When** I reach for a stress snack, **then** I drink water and wait 10 minutes first.

**When** rest feels unproductive, **then** I remind myself recovery is what makes the work possible.
